

# Fashion Designing Courses Detail

## FASHION:

The very word invites you into a world of colours, style, glamour, catwalks, models - suddenly as if you find yourself in the limelight where the world in front of you demand your best. Fashion creates images & impression and has the timeless mystery of seduction leading to changes in style and personality. A fashion designer is the key to the world of fashion & style and Fashion Designing is one profession which can be pursued without a IT Vocational degree or qualification.

## FASHION CAREERS:

If you possess a flair for design, have a creative urge to experiment with colour & fabrics, if you enjoy the competitive spirit of marketing, then fashion may be right thing for you .There are thousands of exciting job opportunities in the fashion industry for people with the right training in Fashion Designing, Modeling, Window displays, Sales, Buying & merchandising, Product promotion, Fashion shows, etc. The fashion garment industry is one of the fastest growing industries in India and has a vast domestic & export market. This creates a growing need for the professional. CEC diploma holders can start their own free-lance practice, design in houses, modeling agencies, boutiques, exports, etc. The scope is unlimited.

## Fashion Technology

A strong sense of fashion trends and appreciation of fabrics are two of the core skills of fashion technology.

Whether designers are creating prototypes for mass production or unique bespoke garments for a single client they will be expected to know how to source, buy, and store raw materials and fabrics and then translate designs into wearable clothes for any occasion.

### Vision

Achieve excellence in academics and research and face the challenges of fashion and clothing industry.

### Mission

Develop core competencies with a curriculum encompassing design, manufacture, and management domains.

Develop the competency of the faculty to the level of International repute through state-of-the-art infrastructure and facility, focus on research and up skilling.

Stimulate analytical and creative thinking to transform the students as socially responsible, competent professionals, entrepreneurs, researchers useful to the society, through innovative teaching learning

Promote collaborations with industry to comprehend global practices leading to excellence.
